

Application - AI-programmed Servo Control

Verify that OpenClaw has been configured.

Enter the root environment (if OpenClaw was installed under the root directory using root privileges).

```
sudo su
```

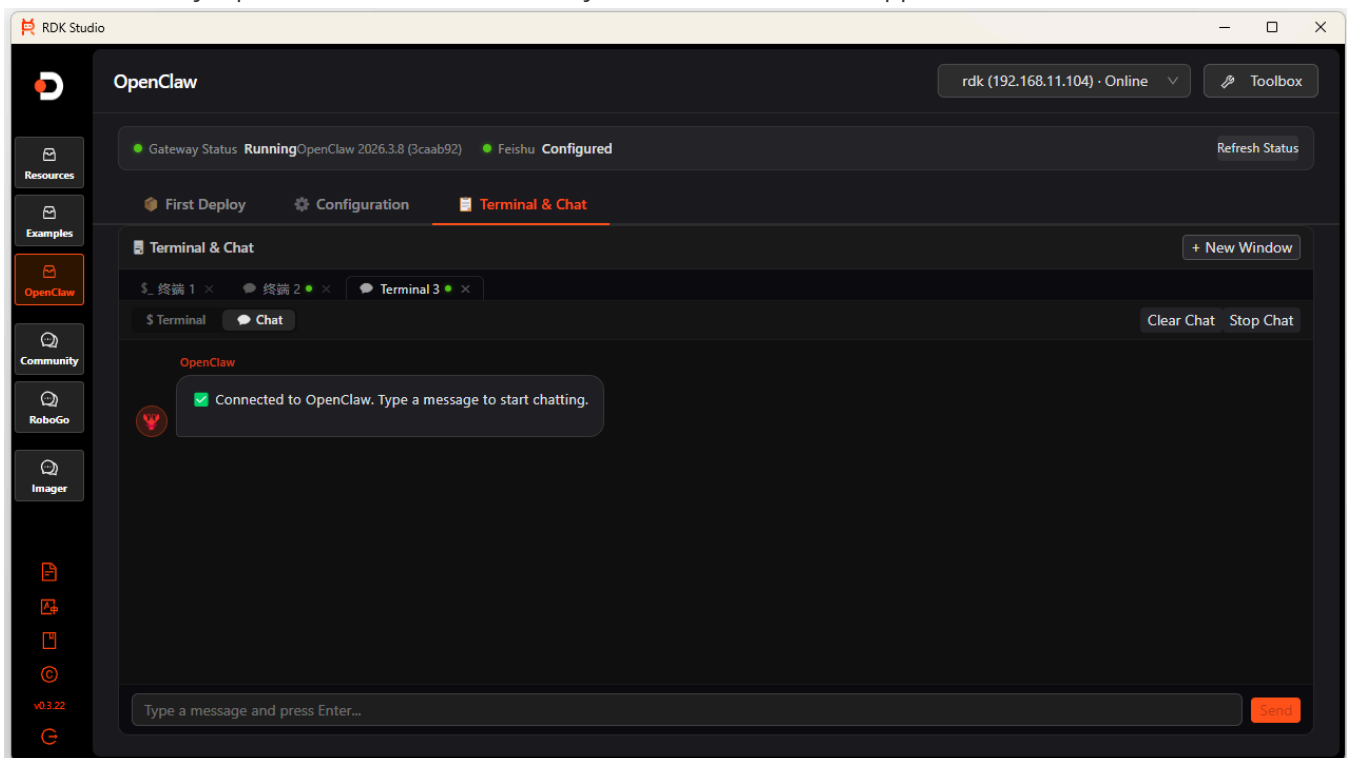

Start the Gateway. (Typically, the Gateway starts automatically, so running this command is not required.)

```
openclaw gateway
```

Interact via the TUI terminal interface.

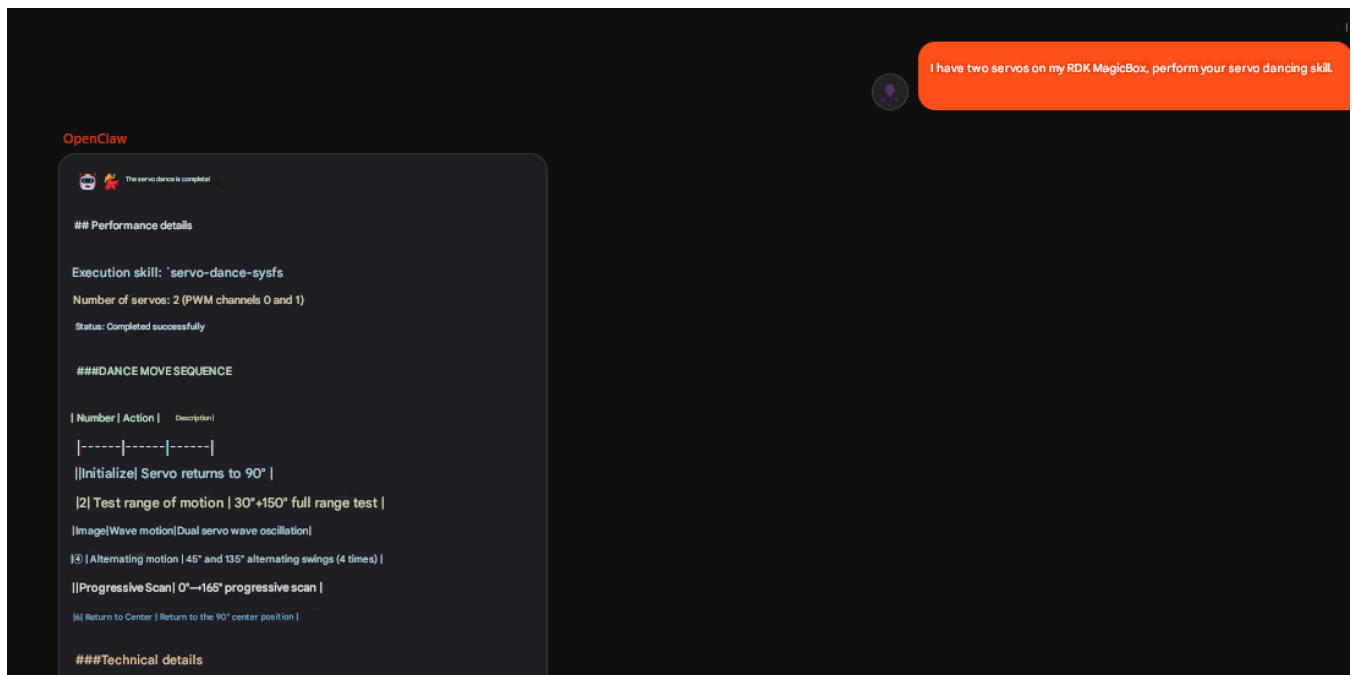

```
openclaw tui
```

Alternatively, open the chat interface directly, or access it via WhatsApp.

Enter the interaction command

I have 2 servos on my RDK MagicBox, perform your servo dancing skill

When performing these controls, simply provide openclaw with the basic servo motion library file, and it will help you easily achieve the functionality you want. Then save it as an openclaw skill so you can use a simpler command next time to make the servo execute this skill.
